4. The final acceptance of any tender will rest with the Chief Engineer for Irrigation in Mysore, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

5. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond in default of which, his tender will be considered cancelled, and his earnest money will be forfeited.

6. The name of the successful competitor, whose tender has been accepted will be posted on the notice board in the Executive Engineer's Office in due course. No enquiries regarding acceptance or rejection of a tender will receive any reply.

7. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

8. The tender should be accompanied by an analysis certificate in support of the quality of sulphate of alumina offered, in the absence of which, the tender will not be considered.

The specification of the sulphate of alumina to be supplied shall be as follows:--

The basic sulphate of alumina shall be free from arsenic and poisonous metals and suitable for use in connection with a potable water-supply and guaranteed to contain 17 per cent of alumina soluble in water and of this amount, at least 5 per cent shall be in excess of the amount theoretically required to combine with the sulphuric acid present. It shall not contain more than O. 1 per cent of matter insoluble in water and it shall be practically free of chips and debris of all kinds. It shall not contain more than O. 5 per cent of Iron (Fe2 O3) and the iron shall be preferably in the ferrous state. The alum shall be crushed to pieces of such a size that they shall pass through a ring three inches in diameter.

S. SREENIVASA AIYER,
Executive Engineer.
